PROFILE

Detail-oriented and analytical Data Analyst with a strong foundation in statistics, data visualization, and business intelligence. Proficient in transforming complex datasets into actionable insights using tools like SQL, Excel, Power BI, and Python. Skilled at identifying trends, creating interactive dashboards, and supporting strategic decision-making. Adept at working with cross-functional teams to solve real-world business problems through data-driven approaches. Eager to contribute analytical skills to help organizations optimize performance and drive growth.

EDUCATION

Bachelor in Technology ICFAI University	08/2021 – 05/2025 Raipur, India
Higher Secondary Education Bharat Mata HR. SEC. School	06/2019 – 05/2021 Raipur, India
High School Education Spring Dales Public School	08/2006 – 03/2019 Raipur, India

PROJECTS

Student information system • Developed a CRUD-based student data management system using ASP.NET . • Included functionality for adding, updating, deleting, and displaying student records.	12/2024 – 01/2025
Digital Display To Detect visitor The Digital Display for Visitor Detection is a real-time AI-powered system that captures a visitor's face, analyzes their characteristics, and displays relevant information on a digital screen. It utilizes computer vision and deep learning to estimate the visitor's age, gender, and emotion, making it useful for retail stores, offices, security systems, and interactive displays.	08/2024 – 12/2024
Discussion forum • Built a full-stack role-based web app using ASP.NET MVC and SQL Server. • Created distinct dashboards for Admin, Faculty, and Students with login-based redirection. • Integrated approval workflows and secure user authentication.	01/2025 – 05/2025
Data Analyst (Client Project: Deloitte Austria) • Collaborated with Deloitte Austria's analytics team on a digital transformation initiative to improve data-driven decision-making across financial operations • Performed data extraction, cleaning, and preprocessing using tools like SQL, Python (Pandas) , and Excel • Designed and delivered interactive dashboards in Power BI to visualize key performance indicators (KPIs) for audit and tax reporting processes • Conducted exploratory data analysis (EDA) and generated actionable insights to identify operational bottlenecks and compliance risks • Worked in an Agile environment with cross-functional teams, ensuring timely delivery of data products and client presentations • Contributed to the creation of automated reporting solutions , reducing manual reporting time by over 40%	01/2025

PROFESSIONAL EXPERIENCE

Dot Net Developer

Intern

A entry-level position where I will gain hands-on experience in designing, developing, and testing software applications using the .NET framework, primarily with languages like C# and ASP.NET, under the guidance of senior developers, learning to contribute to real-world projects while acquiring practical skills in the .NET ecosystem.

01/2025 – 05/2025
Hyderabad, India

ORGANISATIONS

CIT IFHE

Intern

01/2025 – 05/2025
Hyderabad, India

COURSES

Data Structures & Algorithms + Web Development

Apna College

02/2025 – 05/2025

Complete Data Analyst Bootcamp From Basics To Advanced

UDEMY

- Learned **Python** for data analysis (Pandas, NumPy, Matplotlib, Seaborn)
- Gained practical knowledge of **SQL** (data extraction, joins, aggregations)
- Applied **statistical concepts** (descriptive stats, hypothesis testing)
- Built interactive **Power BI dashboards** with DAX expressions
- Completed **capstone projects** involving end-to-end data cleaning, analysis, visualization, and reporting
- Developed strong **problem-solving skills** and analytical mindset through hands-on assignments

CERTIFICATES

- Deloitte Australia Technology Job Simulation on Forage - January 2025
- Complete Data Analyst Bootcamp: From Basics to Advanced

DECLARATION

I hereby declare that the above particulars of facts and information stated are true,correct and complete to the best of my belief and knowledge.
